Hang Nguyen Minh Diep

Entrepreneurship Programme Coordinator at VinAI Research
Vietnam

Experience

VinAI Research
Entrepreneurship Programme Coordinator
March 2020 - Present (9 months)
Hanoi, Thành Phố Hà Nội, Vietnam

Entrepreneurship Program is launched with a desire to help AI startups whose
competitive advantage and success critically depend on their technological
innovation. As a part of this program, we would offer partnered startups many
benefits including working space collocated with the lab, working environment
with word-class experts, and connection to potential customer groups within
the VinGroup ecosystem.

- Recruit AI startups in Vietnam in terms of product technology in the early
stages
- Manage and coordinate the participating startups

InfoRe Technology
Human Resources Manager
January 2018 - December 2019 (2 years)
Hanoi, Vietnam

InfoRe Technology's aim is to narrow the distance between researching và
performing, academic and reality branch of Information Technology, like
Machine learning, Natural language processing, Data mining, Big data, Search
engine, Software development on mobile devices... The company's employees
are talented students.

At InfoRe:
1. I'm developing a recruitment system that applies Artificial Intelligence (AI)
technology called HEADs.
The target audience of the system is high-level recruitment such as CTO,
CAIO,... & new positions will appear in the future without job descriptions.
- We turn recruitment problem into a sales marketing problem.
- Use social networking data to analyze data to find the target audience.
A description of the data system from social networks for personal modeling:
http://orm.vn/d.pdf

2. Manage all recruitment and management activities at InfoRe. Nearly 2 years, more than 300 AI trainees and DA trainees have been recruited, maintaining 60 employees;

3. Recruiting Data labels for Automatic Speech Recognition project (Text to Speech), collecting 1.500 CV, managing all 350 collaborators within 3 months.
